About CFTRI

CSIR–Central Food Technological Research Institute (CFTRI), Mysore, a constituent laboratory of Council of Scientific and Industrial Research (CSIR), under Department of Science & Technology, Government of India, is a globally acclaimed R&D organization in the area of food science & technology with innovative and sustainable solutions for national development came into existence in 1950.

About the Program

On the occasion of World Egg Day on 14-10-2022, CFTRI is organizing a workshop on “Egg based value-added products – Processing, Packaging and Preservation” under the CSIR Integrated Skill initiative.

Eggs are one of the few foods that are consumed throughout the world regardless of religion and ethnic group. The poultry egg is one of the perfectly preserved biological items found in nature and are considered an excellent source of high-quality protein and other growth promoting biological substances. Chicken egg is one of the leading livestock productions in India. India ranks third in the world hen eggs production and produced 5.7 MT of eggs in 2019. Even though India is the leading producer of hen eggs in the world, the annual consumption is about 86 eggs per

person against a global average of about 161 eggs per person as on 2018-19. Most eggs are served as fresh table eggs and any processed/ready-to-eat products of eggs are truly uncommon in India. Eggs are highly perishable and have limited shelf-life which need to be marketed immediately or processed into value-added products.

This workshop will be focused to create awareness for the value addition of egg-based products that would enhance the value and use of eggs to supplement human nutrition which will improve the sustainability and socio-economic development of the egg industry, poultry farmers and stakeholders.

INSTRUCTIONS TO THE APPLICANTS:

1. This skill development program/workshop will be suitable for the budding entrepreneurs / micro-entrepreneurs / startups, SHGs and entrepreneur spirants who are interested on egg-based value-added products.
