

About CFTRI

CSIR–Central Food Technological Research Institute (CFTRI), Mysore (A constituent laboratory of Council of Scientific and Industrial Research, New Delhi) came into existence during 1950 with the great vision of its founders, and a network of inspiring as well as dedicated scientists who had a fascination to pursue in-depth research and development in the areas of food science and technology. Research focus of CSIR-CFTRI has been revolved around broadly into the following areas:

- Engineering Sciences
- Technology Development
- Translational Research
- Food Protection and Safety

Food Technology being inter-disciplinary in nature the mandate or vision of the Institute is fulfilled through various R&D Departments and Support Departments along with its Resource Centres at Hyderabad, Lucknow and Mumbai.

About Library

Central Library of CFTRI also known as Food Science and Technology Information Services (FOSTIS) has an extensive collection of books, current periodicals, standards, patents, theses, etc., which are of immense help to scientists, researchers and industries.

The library has been serving the R&D community enabling them to keep track of the technological advances worldwide. The library has access to global information through several databases, e-Journals through CSIR Consortium of Libraries. FOSTIS provides a wide range of information services such as Current Awareness Service, Document Delivery Service, National and International Database Search Service.

About the Seminar

CSIR-CFTRI, Mysuru is conducting One day Seminar on “**Innovation & Sustainable Information Services in Digital Era**” on February 4th 2020 in association with ICSSR, New Delhi and support of , AFST(I), Mysuru, American Chemical Society and Springer Nature.

The digital revolution including the growth of virtual world and web applications have become challenging for libraries and information services to undergo paradigm shifts in information delivery. Embracing these radical changes means that libraries and information services rely on innovative ideas that significantly shift strategic direction. Libraries can remain relevant in the virtual world by searching for and shaping opportunities, enabling futuristic learning environments new ideas and producing creative/sustainable outcomes within services.

The major objectives of this seminar is to bring together Library & Information Professionals associated with reputed institutions in and around Mysuru to exchange the ideas, new initiatives, rich experiences and viewpoints about innovative library services for overall benefit of the library users including food scientists. National experts from premier institutions viz., IISc, DRDC, NAL, NISCAIR and NIIT are delivering lectures on various topics.

The sub-themes of the seminar

- Open Source Information Systems
- State of art Information Services for R&D Professionals

The targeted audience

Lib.Professionals / Academicians, Graduate / PG Students / Researchers of Lib & Inf.Sci.

Call for abstracts related to the technical themes of the workshop is open for inclusion in the workshop booklet.

Key Dates:

Abstract Submission	: Jan 30 2020
Registration	: Jan 30 2020

Registration Fee:

Students	: Rs 300.00
Library Professionals	: Rs 600.00

Registration fee may be made through SBI Collect link available at www.cftri.res.in
