About CSIR-CFTRI:

CSIR – Central Food Technological Research Institute (CFTRI), Mysore, a constituent laboratory of Council of Scientific and Industrial Research (CSIR), under Department of Science & Technology, Government of India, is a globally acclaimed R&D organization in the area of food science & technology with innovative and sustainable solutions for national development, which came into existence in 1950.

About the Workshop:

The global bakery market is expected to grow by 2.6% CAGR and USD of 544 billion by 2024. In India, the bakery industry is one of the largest food industries in the country with an annual turnover of about Rs 3000 crores. Bakery products have become popular in India and it is evidenced by a two-fold increase in their production during the last five years. To capture the rising market, the budding entrepreneurs/micro-entrepreneurs/ startups and SHGs needed essential skills to sustain in the market and to meet the growing needs of the consumers.

CSIR-CFTRI is organising One Day exclusive Webinar focusing on the raw material selection, arts & science of making different bakery products, packaging and food laws and newer trends in the bakery industry. The daylong session would be an ideal opportunity to those who are having small bakery units in the rural and urban settings. The Institute has expert faculties who have considerable years of experience in the area of innovative product development, undertaking of Industry projects and conducting skill development programs including NSDC aligned programs. Those who are interested may register at <https://cftri.res.in/sdp>

Outline of the program:

- Flour quality requirements for different bakery products
- Unit operations in bread making
- Trends in biscuit & cake manufacturing
- High protein bakery products
- Funding schemes for bakery startups
- Food Safety, Regulations & Labelling
- Panel discussion
