

Title: A process for the preparation of a formulation for ready-to-reconstitute rice flake based product

Abstract: A formulation for ready-to-reconstitute product based on rice flakes – a process thereof has been developed using the ingredient such as rice flakes sugar jaggery sesame soyflour and flavourings/cardamom (ground) The process involves drying of rice flake, to a moisture content and blending with jaggery, sugar, roasted sesame, thermally processed defatted soyflour and natural flavourings such as cardamon. The convenience mix can be reconstituted by adding to it equal volume of water and holding.
