

<b>Title:</b>	A process for preparation of besan ( bengal gram/chickpea flour) by wet milling.
<b>Abstract:</b>	The invention relates to a Process for preparation of besan (Bengal gram/chickpea flour), by wet milling. A pretreatment is given to grains prior to dhal making and grinding that gives flour suitable for the preparation of <i>Sev &amp; boondi</i> . Besan prepared by this process could be used for preparation of sev and boondi especially medium coarse fraction (100 to 300 microns) is suitable for sev while fine fraction (< 100 microns) could be used for boondi preparations.
