

Tender reference No.: CFTRI/52348/2024

Bid No. GEM/2024/B/5165185

**Sub.: Procurement of High Moisture Extruder**

Please note the following clarification against query raised by few prospective bidders.

S. No	Specification	Query of prospective bidders	Clarification
1	Branded Nitrogen generator (Peak Scientific) For Nitrogen flushing for cooling die & packaging matching with extruder throughput	For Nitrogen flushing for cooling die & packaging matching with extruder throughput Required Flow rate of Nitrogen: ? Purity of nitrogen: ? Pressure:?? Application: ??	For Nitrogen flushing for cooling die & packaging matching with extruder throughput – <b>50 Kg/hr</b> Required Flow rate of Nitrogen: <b>250 ppm @2.5 Nm<sup>3</sup>/h</b> Purity of nitrogen: <b>99.975 %</b> Pressure: <b>6-12 Bar</b> Application: <b>food application for removal of oxygen</b>
2	Dryer for dry extrudate Continuous type dryer matching the throughput of dry extrusion (Food grade material)	Moisture of Food Grade materials at entry: ? Moisture of Food Grade Materials at Dryer out let = ??	Moisture of Food Grade materials at entry: <b>20-30 %</b> Moisture of Food Grade Materials at Dryer out let = <b>&lt; 10 %</b>

Prospective bidders are advised to submit their quote accordingly.
